Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. ***Claims 23-43*** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
 - The Examiner would like to bring to the Applicant's attention to the claimed invention, "judgment device/step adapted to judge the entrance/exit of a person in accordance with the communication with the wireless communication terminal by a first wireless communication method." The Examiner has respectfully interpreted this as being a function performed in the entrance/exit apparatus. Consequently, after reviewing the Applicant's Specification, the only indication where a judgment "process" is being taken place is by the control unit (46) of the IC card (22) contained in the cellular telephone (6). Please refer to the Applicant's FIGURE 3 and paragraphs [0048 and 0062].

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. ***Claim 44*** is rejected under 35 U.S.C. 102(e) as being anticipated by Sawanda (U.S. Patent Number 6,421,544 B1).

Regarding ***claim 44***, Sawanda discloses a control method for a personal handy phone (1), which reads on claimed "wireless communication terminal," having a first communication device adapted to communicate with a doorway base station (5), which reads on claimed "entrance/exit management apparatus," for managing and entrance/exit of a person (2) carrying the said PHS (1) by a first wireless communication method and a second communication device adapted to restrict communication by a second wireless communication method, the method comprising:

- reception step of receiving an instruction for restricting communication of the second communication device from the entrance/exit regulating apparatus via the first communication device. See column 3 lines 45-62, column 8 lines 48-50 and column 14 lines 11-15 and lines 33-48, respectively;

- a restrictive step of restricting communication of the second communication device in accordance with the instruction received at said reception step. See, column 14 lines 33-58.

Response to Arguments

Applicant's arguments with respect to ***claim 23-44*** have been considered but are moot in view of the new ground(s) of rejection.

Per the above Office Action, ***claims 23-44*** stand rejected based on Examiner's comments and citation of new prior art.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2686

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
